EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Raye L. Daugherty on April 4, 2007.

The application has been amended as follows:

In claim 45:

Line 2, --a first protrusion-- has been inserted after "including".

Line 3, --and a second protrusion,-- has been inserted after "aperture,".

Line 9, before "at least one finger", --the lever including a second aperture adapted to receive the first protrusion of the pump;-- has been inserted.

Line 10, --the second protrusion of-- has been inserted after "contact".

It is noted that the above changes to the claims were made to correct a Section 112, 2nd paragraph rejection, i.e., the structural relationship between the lever and the rail is unclear.
